

LESSON 15 – DICTATION IN PAST PERFECT AND PAST PERFECT PROGRESSIVE

Results:

A year ago, Daniel had flown back to Mexico to see his family again.

He'd been living in the USA for almost 30 years, and since then, he hadn't seen his mother and father. By the time he arrived, he couldn't see his father because he had died a week before Daniel came back. He was really sad.

Throughout those 30 years, there had been many changes, not only his family but also the city had been changing for the better.

He visited Mexico with his American wife and their five-year-old twins. The kids and in his wife spoke English, but they hadn't had problems speaking Spanish since Daniel had been speaking Spanish with them for a long time and they'd been learning it.

They hadn't ever been to Mexico before, but they were quite excited to visit many interesting places and Daniel's family was also happy to see them.
